Alternative Containers

If you want to arrange a direct cremation, you can use an alternative container.

Alternative containers encase the body and can be made of materials like fiberboard or composition materials (with or without an outside covering). The containers we provide are constructed of

fiberboard and plywood material.

Cremation costs are unaffected based upon choice of container. Direct cremation with container provided by the purchaser, and direct cremation with minimum alternative container are **both \$995.00**.

What makes After.com different?

Transparency and Simplicity.

Most funeral and cremation providers use the "quote it low, watch it grow" strategy. After quoting a minimal price for cremation you are introduced to a number of unexpected fees based on the weight of your loved one, the distance from the funeral home, state fees, county fees, and on the list goes.

At After, the only selection you'll need to make is the number of Death Certificates you need. That's it. Everything else you

need is included in the quoted price.

Everything. That includes an urn, taxes, state fees, county fees, additional mileage, the cremation container, the medical examiner pouch, delivery of the cremated remains and so forth.

The highest quality of service for your loved one with the most simple of processes for you. Simplicity, when you need it most.
